

EyeMed makes it easy and affordable to have quality vision care for your family.

At EyeMed, we not only promote vision wellness through preventative eye exams, we offer value through a variety of features.

• **Easy-to-Understand Benefits**

EyeMed uses simple benefit formulas that work the same way at all provider types. The exam benefit includes dilation as indicated at no additional cost while popular lens options are available at fixed prices.

• **Copayments**

Plans typically include copayments for eye exams, saving significant money off the doctor's usual and customary charges. Copayments for services and materials allow you to know out-of-pocket costs up-front, and you'll simply pay the amount indicated by the plan.

• **Unlimited Savings**

Additional complete pairs of glasses are 40% off retail price while additional pairs of conventional contact lenses are 15% off retail price. Except for doctors' services and contact lenses, non-covered items such as lens cleaner and eyewear accessories are 20% off retail.

• **Freedom to Choose**

You can choose the type of provider you want to use. Frame discounts and allowances can be applied toward any brand of frame available at the provider locations.

• **Replacement Contact Lenses**

All prescriptions are verified with the doctor for maximum patient safety. Additional pairs of contact lenses can be ordered at www.eyemedcontacts.com where members will pay less than typical retail prices. The replacement contact lenses will be delivered to your home for your convenience.

• **LASIK**

Members receive 5% off promotional pricing or 15% off regular pricing on laser vision correction through the U.S. Laser Vision network, which is owned and administered by LCA-Vision. The discount can be used for LASIK, PRK, or e-LASIK procedures.

More than 75% of Americans require vision correction. This includes children, teenagers and adults.

EyeMed's quality vision care program benefits every member of your family. Annual eye exams not only detect vision problems such as glaucoma, cataracts and reduced vision from nearsightedness, farsightedness and astigmatism; comprehensive eye exams can also reveal the warning signs of more serious undiagnosed health problems such as hypertension, cardiovascular disease and diabetes.

Eye Health Checklist

Answer these questions to determine the eye health of you and your family.

Do your eyes itch, water or burn at any time?	Yes	No
Do you experience frequent headaches?	Yes	No
Are lights, including sunlight, or glare bothersome in any tasks or activities you perform?	Yes	No
Do you ever experience spontaneous light flashes or floaters in your vision?	Yes	No
Do you take any medications on a long-term basis (more than two weeks continuously)?	Yes	No
Does anyone in your family have glaucoma or is suspected of having glaucoma?	Yes	No
Has anyone in your family been diagnosed with diabetes or is borderline for the disease?	Yes	No
Has anyone in your family been diagnosed with high blood pressure (hypertension)?	Yes	No
Do you have a family history of cataracts?	Yes	No

If you or a family member answered yes to any of the questions above, you should consider an eye exam in the near future.

EyeMed makes it convenient to protect your family's vision wellness. It's as easy as 1, 2, 3.

1. **Locate a provider.** With EyeMed, you can choose from private practice and optical retail providers in your area. At www.eyemedvisioncare.com you can search a large and diverse network of ophthalmologists, optometrists and opticians.
2. **Schedule an appointment** with a simple phone call or stop by one of the many providers that accept walk-in visits.
3. **Present your ID card** when you arrive to identify yourself as an EyeMed Vision Care member.

Your EyeMed provider will take care of the rest!
